

**Ready to make  
your summer  
unforgettable  
with hands-on  
experience in a  
vibrant clinic?**

We have the perfect summer job opportunity for the Class of 2028 and 2029 Canadian optometry students. Join our exciting 4 to 6 week paid summer program, running between May to August 2026.

Specsavers

# A unique opportunity to learn and gain real-world experience in optometry

You'll work 20 hours a week, assisting optometrists with pre-tests using advanced clinical equipment like the Topcon Maestro 2 OCT, Nidek Tonoref 3, Zeiss Humphrey Field Analyzer 3, and Nidek automatic lensometer.

Dive into topics before you cover them in class and receive ongoing mentorship from experienced doctors. You'll have the opportunity to discuss interesting cases and enhance your learning through structured case study discussions. Plus, you'll connect with other students from across the country, virtually or in-person.

## To be eligible:

- Must be a Canadian optometry student enrolled in a US or Canadian university
- Available to work 20 hours per week for a 4 to 6 week program (flexible start and end dates)

## Interested?

We'd love to hear from you
